SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
- Trade name: ASPEN OUTBOARD OIL

1.2 Relevant identified uses of the substance or mixture and uses advised against
- Industrial use of lubricants and greases in vehicles or machinery
- Professional use of lubricants and greases in vehicles or machines
- Private use of lubricants and greases in vehicles or machines
- According to the generic exposure scenarios of the ATIEL / ATC on the use of lubricants (V1.0, 07.01.2013)
- See details of exposure scenarios in Annex

1.3 Details of the supplier of the safety data sheet
- Manufacturer/Supplier: Lantmännen Aspen
  Iberovägen 2
  SE-438 Hindäs
  Phone: +46 301 23 00 00
  Fax: +46 301 23 00 99
- Further information obtainable from: aspensds@lantmannen.com
- Emergency telephone number:
  In case of a medical emergency following exposure to a chemical, the public should call NHS Direct in England or Wales 0845 46 47 or NHS 24 in Scotland 08454 24 24 24 (UK only).

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture
- Classification according to Regulation (EC) No 1272/2008
  The product is not classified, according to the CLP regulation.

2.2 Label elements
- Labelling according to Regulation (EC) No 1272/2008 Void
  - Hazard pictograms Void
  - Signal word Void
  - Hazard statements Void
  - Additional information:
    Safety data sheet available on request.

2.3 Other hazards
- Results of PBT and vPvB assessment
  - PBT: Not applicable.
  - vPvB: Not applicable.

SECTION 3: Composition/information on ingredients

3.2 Chemical characterisation: Mixtures
- Description: Mixture of substances listed below with nonhazardous additions.

<table>

(Contd. on page 2)
SECTION 4: First aid measures

4.1 Description of first aid measures
- General information: No special measures required.
- After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact:
  - Remove residues with soap and water.
  - Remove contaminated clothing immediately.
- After eye contact: Rinse opened eye for several minutes under running water.
- After swallowing:
  - Do not induce vomiting. Do not take in resorption stimulating agents.
  - Consult a physician who will decide on need and method of emptying the stomach.

4.2 Most important symptoms and effects, both acute and delayed
- No further relevant information available.

4.3 Indication of any immediate medical attention and special treatment needed
- No further relevant information available.

SECTION 5: Firefighting measures

5.1 Extinguishing media
- Suitable extinguishing agents: Use fire extinguishing methods suitable to surrounding conditions.

5.2 Special hazards arising from the substance or mixture
- In case of fire, carbon and nitrogen oxides can be formed.

5.3 Advice for firefighters
- Protective equipment: No special measures required.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
- Not required.

6.2 Environmental precautions:
- Do not allow to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up:
- Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

6.4 Reference to other sections
- No dangerous substances are released.
- See Section 7 for information on safe handling.
- See Section 8 for information on personal protection equipment.
- See Section 13 for disposal information.

SECTION 7: Handling and storage

7.1 Precautions for safe handling
- No special measures required.
- Information about fire - and explosion protection: Do not heat above flash point.

7.2 Conditions for safe storage, including any incompatibilities
- Storage:
  - Requirements to be met by storerooms and receptacles: No special requirements.
  - Information about storage in one common storage facility: Not required.
- Further information about storage conditions:
  - Store containers closed and protect against rain, dust, heat and other atmospheric influences.
- Storage class: 10

7.3 Specific end use(s)
- No further relevant information available.
* SECTION 8: Exposure controls/personal protection

- Additional information about design of technical facilities: No further data; see section 7.

- 8.1 Control parameters
  - Ingredients with limit values that require monitoring at the workplace:
    The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.
  - Additional information: The lists valid during the making were used as basis.

- 8.2 Exposure controls
  - General protective and hygienic measures:
    Keep away from foodstuffs, beverages and feed.
    Wash hands before breaks and at the end of work.
    Do not inhale gases / fumes / aerosols.

- Respiratory protection:
  Not necessary if room is well-ventilated.
  Respiratory protection if formation of aerosol or mist: use mask with filter type A2, A2/P2 or ABEK.

- Protection of hands:
  The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
  Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

- Material of gloves
  Protective gloves to EN374, resistant to oil in use. Standard EN 374 Level 3 control G1
  The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.
  - Fluorocarbon rubber (Viton)
  - Nitrile rubber, NBR
  - Recommended thickness of the material: ≥ 0.4 mm

- Penetration time of glove material
  The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
  For the mixture of chemicals mentioned below the penetration time has to be at least 60 minutes (Permeation according to EN 374 Part 3: Level 1).

- Eye protection:
  Goggles recommended during refilling

- Body protection:
  Protective work clothing

* SECTION 9: Physical and chemical properties

- 9.1 Information on basic physical and chemical properties
  - General Information
    - Appearance:
      - Form: Fluid
      - Colour: sea-green
    - Odour: Characteristic
    - Odour threshold: Not determined.
    - pH-value: Not determined.

- Change in condition
  - Melting point/freezing point: Undetermined.
  - Initial boiling point and boiling range: Undetermined.

- Flash point: >200 °C

- Flammability (solid, gas): Not applicable.

- Decomposition temperature: Not determined.

SECTION 10: Stability and reactivity

10.1 Reactivity: No further relevant information available.
10.2 Chemical stability: No decomposition if used according to specifications.
10.3 Possibility of hazardous reactions: No dangerous reactions known.
10.4 Conditions to avoid: No further relevant information available.
10.5 Incompatible materials: No further relevant information available.
10.6 Hazardous decomposition products: No dangerous decomposition products known.

SECTION 11: Toxicological information

11.1 Information on toxicological effects: No further relevant information available.
11.2 Acute toxicity: Based on available data, the classification criteria are not met.
11.3 Primary irritant effect: No further relevant information available.
11.4 Skin corrosion/irritation: Based on available data, the classification criteria are not met.
11.5 Serious eye damage/irritation: Based on available data, the classification criteria are not met.
11.6 Respiratory or skin sensitisation: Based on available data, the classification criteria are not met.
11.7 CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction): No further relevant information available.
11.8 Germ cell mutagenicity: Based on available data, the classification criteria are not met.
11.9 Carcinogenicity: Based on available data, the classification criteria are not met.
11.10 Reproductive toxicity: Based on available data, the classification criteria are not met.
11.11 STOT-single exposure: Based on available data, the classification criteria are not met.
11.12 STOT-repeated exposure: Based on available data, the classification criteria are not met.
11.13 Aspiration hazard: Based on available data, the classification criteria are not met.

SECTION 12: Ecological information

12.1 Toxicity: No further relevant information available.
12.2 Aquatic toxicity: No further relevant information available.
12.3 Persistence and degradability: No further relevant information available.
12.4 Bioaccumulative potential: No further relevant information available.
Trade name: ASPEN OUTBOARD OIL

12.4 Mobility in soil No further relevant information available.

12.5 Results of PBT and vPvB assessment
- PBT: Not applicable.
- vPvB: Not applicable.

12.6 Other adverse effects No further relevant information available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods
- Recommendation
  Must not be disposed together with household garbage. Do not allow product to reach sewage system.
  Contact waste processors for recycling information.

European waste catalogue
- 13 02 07* readily biodegradable engine, gear and lubricating oils

SECTION 14: Transport information

14.1 UN-Number
- ADR/RID/ADN, ADN, IMDG, IATA Void

14.2 UN proper shipping name
- ADR/RID/ADN, ADN, IMDG, IATA Void

14.3 Transport hazard class(es)
- ADR/RID/ADN, ADN, IMDG, IATA
  - Class Void

14.4 Packing group
- ADR/RID/ADN, ADN, IMDG, IATA Void

14.5 Environmental hazards:
- Marine pollutant: No

14.6 Special precautions for user
- Not applicable.

14.7 Transport in bulk according to Annex II of Marpol and the IBC Code
- Not applicable.

UN "Model Regulation": Void

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
- Directive 2012/18/EU
- Named dangerous substances - ANNEX I None of the ingredients is listed.
15.2 Chemical safety assessment: A Chemical Safety Assessment has been carried out.

SECTION 16: Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship. The classification of the mixture was carried out by calculation in accordance with the rules laid down in Annex I of Regulation (EC) No 1272/2008.

No special training instructions to ensure protection of human health and environment are required.

Relevant phrases
H304 May be fatal if swallowed and enters airways.
H315 Causes skin irritation.
H330 Causes serious eye irritation.
H411 Toxic to aquatic life with long lasting effects.

Abbreviations and acronyms:
ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
IMDG: International Maritime Code for Dangerous Goods
IATA: International Air Transport Association
GHS: Globally Harmonised System of Classification and Labelling of Chemicals
EINECS: European Inventory of Existing Commercial Chemical Substances
ELINCS: European List of Notified Chemical Substances
CAS: Chemical Abstracts Service (division of the American Chemical Society)
PBT: Persistent, Bioaccumulative and Toxic
vPvB: very Persistent and very Bioaccumulative
Skin Irrit. 2: Skin corrosion/irritation – Category 2
Eye Irrit. 2: Serious eye damage/eye irritation – Category 2
Asp. Tox. 1: Aspiration hazard – Category 1
Aquatic Chronic 2: Hazardous to the aquatic environment - long-term aquatic hazard – Category 2

* Data compared to the previous version altered.

Annex: Exposure scenario 1

Short title of the exposure scenario
Industrial use of lubricants and greases in vehicles or machinery

Sector of Use
SU3  Industrial uses: Uses of substances as such or in preparations at industrial sites

Product category
PC16  Heat transfer fluids
PC17  Hydraulic fluids
PC24  Lubricants, greases, release products

Process category
PROC1  Chemical production or refinery in closed process without likelihood of exposure or processes with equivalent containment conditions.
PROC2  Chemical production or refinery in closed continuous process with occasional controlled exposure or processes with equivalent containment conditions.
PROC8b  Transfer of substance or mixture (charging and discharging) at dedicated facilities
PROC9  Transfer of substance or mixture into small containers (dedicated filling line, including weighing)

Environmental release category
ERC4  Use of non-reactive processing aid at industrial site (no inclusion into or onto article)
ERC7  Use of functional fluid at industrial site

Description of the activities / processes covered in the Exposure Scenario
See section 1 of the annex to the Safety Data Sheet.

Conditions of use
Duration and frequency  5 workdays/week.

Physical parameters

Physical state  Fluid

Concentration of the substance in the mixture  The substance is main component.
• Other operational conditions
  • Other operational conditions affecting environmental exposure No special measures required.
  • Other operational conditions affecting consumer exposure Not required.
  • Other operational conditions affecting consumer exposure during the use of the product Not applicable.

• Risk management measures
  • Worker protection
    • Organisational protective measures No special measures required.
    • Technical protective measures No special measures required.
    • Personal protective measures No special measures required.
  • Measures for consumer protection No special measures required.
  • Environmental protection measures
    • Air No special measures required.
    • Water No special measures required.
  • Disposal measures Ensure that waste is collected and contained.
  • Disposal procedures Dispose of product residues with household waste.
  • Waste type Partially emptied and uncleaned packaging
  • Exposure estimation
    • Consumer Not relevant for this Exposure Scenario.
  • Guidance for downstream users No further relevant information available.

---

**Annex: Exposure scenario 2**

• Short title of the exposure scenario
  Professional use of lubricants and greases in vehicles or machines

• Sector of Use
  SU22 Professional uses: Public domain (administration, education, entertainment, services, craftsmen)

• Product category
  PC16 Heat transfer fluids
  PC17 Hydraulic fluids
  PC24 Lubricants, greases, release products

• Process category
  PROC1 Chemical production or refinery in closed process without likelihood of exposure or processes with equivalent containment conditions.
  PROC2 Chemical production or refinery in closed continuous process with occasional controlled exposure or processes with equivalent containment conditions
  PROC8a Transfer of substance or mixture (charging and discharging) at non-dedicated facilities
  PROC8b Transfer of substance or mixture (charging and discharging) at dedicated facilities
  PROC20 Use of functional fluids in small devices

• Environmental release category
  ERC9a Widespread use of functional fluid (indoor)
  ERC9b Widespread use of functional fluid (outdoor)

• Description of the activities / processes covered in the Exposure Scenario
  See section 1 of the annex to the Safety Data Sheet.

• Conditions of use
  • Duration and frequency 5 workdays/week.
  • Physical parameters
    • Physical state Fluid
    • Concentration of the substance in the mixture The substance is main component.

• Other operational conditions
  • Other operational conditions affecting environmental exposure No special measures required.
  • Other operational conditions affecting consumer exposure Not required.
  • Other operational conditions affecting consumer exposure during the use of the product Not applicable.

• Risk management measures
  • Worker protection
    • Organisational protective measures No special measures required.
Technical protective measures: No special measures required.

Personal protective measures: No special measures required.

Measures for consumer protection: No special measures required.

Environmental protection measures:
- Air: No special measures required.
- Water: No special measures required.

Disposal measures: Ensure that waste is collected and contained.

Disposal procedures: Dispose of product residues with household waste.

Waste type: Partially emptied and uncleaned packaging.

Exposure estimation:
- Consumer: Not relevant for this Exposure Scenario.

Guidance for downstream users: No further relevant information available.

Annex: Exposure scenario 3

- Short title of the exposure scenario: Private use of lubricants and greases in vehicles or machines.
- Sector of Use: SU21 Consumer uses: Private households / general public / consumers.
- Product category: PC24 Lubricants, greases, release products.
- Environmental release category:
  - ERC9a: Widespread use of functional fluid (indoor).
  - ERC9b: Widespread use of functional fluid (outdoor).
- Description of the activities/processes covered in the Exposure Scenario:
  See section 1 of the annex to the Safety Data Sheet.
- Conditions of use:
  - Duration and frequency: 5 workdays/week.
- Physical parameters:
  - Physical state: Fluid.
- Concentration of the substance in the mixture: The substance is main component.
- Other operational conditions:
  - Other operational conditions affecting environmental exposure: No special measures required.
  - Other operational conditions affecting consumer exposure: Not required.
  - Other operational conditions affecting consumer exposure during the use of the product: Not applicable.
- Risk management measures:
  - Worker protection:
    - Organisational protective measures: No special measures required.
    - Technical protective measures: No special measures required.
  - Personal protective measures: No special measures required.
  - Measures for consumer protection: No special measures required.
- Environmental protection measures:
  - Air: No special measures required.
  - Water: No special measures required.
  - Disposal measures: Ensure that waste is collected and contained.
  - Disposal procedures: Dispose of product residues with household waste.
  - Waste type: Partially emptied and uncleaned packaging.
  - Exposure estimation:
    - Consumer: Not relevant for this Exposure Scenario.
  - Guidance for downstream users: No further relevant information available.
